Disclosure under Basel III norms as on 31st December 2022

1: Scope of Application

The South Indian Bank Limited is a commercial bank, which was incorporated on January 25, 1929 in Thrissur, Kerala.

As per capital adequacy guidelines under Basel III, insurance and non-financial subsidiaries / joint ventures / associates etc. of banks are not to be consolidated. Bank's Subsidiary, M/s SIB Operations and Services Limited, is a non-financial entity, and hence not consolidated for capital adequacy purpose.

Name of the entity / country of incorporation	Whether entity is included in the accounting scope of consolidation	Explain the method of consolidation	Whether the entity is included under regulator y scope of consolid ation	Explain the method of consolidation	Explain the reasons for difference in the method of consolidation	Explain the reasons if consolidated under only one of the scopes of consolidation
M/s SIB Operations and Services Limited/India	Yes	AS-21	No	NA	NA	The Bank's Subsidiary, is a non- financial entity, and hence not consolidated for capital adequacy purpose

2: Capital Adequacy

I. Qualitative Disclosure

RBI Guidelines on capital adequacy

The Bank is subject to the capital adequacy guidelines stipulated by RBI, which are based on the framework of the Basel Committee on Banking Supervision. As per Basel and RBI guidelines, the Bank is required to maintain a minimum Capital to Risk Weighted Assets Ratio (CRAR) of 9% {11.5% including Capital Conservation Buffer (CCB) of 2.5%}, with minimum Common Equity Tier I (CET1) of 5.5% (8% including

CCB). These guidelines on Basel III have been implemented completely. Thus the minimum CRAR required to be maintained by the Bank as on 31st December 2022 is 11.50 %.

The bank's approach in assessment of capital adequacy

The bank is following Standardized Approach, Standardized Duration Approach and Basic Indicator Approach for measurement of capital charge in respect of credit risk, market risk and operational risk respectively. Besides, computation of CRAR under the Pillar I requirement, the Bank also periodically undertakes stress testing in various risk areas to assess the impact of stressed scenario or plausible events on asset quality, liquidity, profitability and capital adequacy. The bank conducts Internal Capital Adequacy Assessment Process (ICAAP) on quarterly basis to assess the sufficiency of its capital funds to cover the risks specified under Pillar- II of Basel guidelines. The adequacy of banks capital funds to meet the future business growth is also assessed in the ICAAP document.

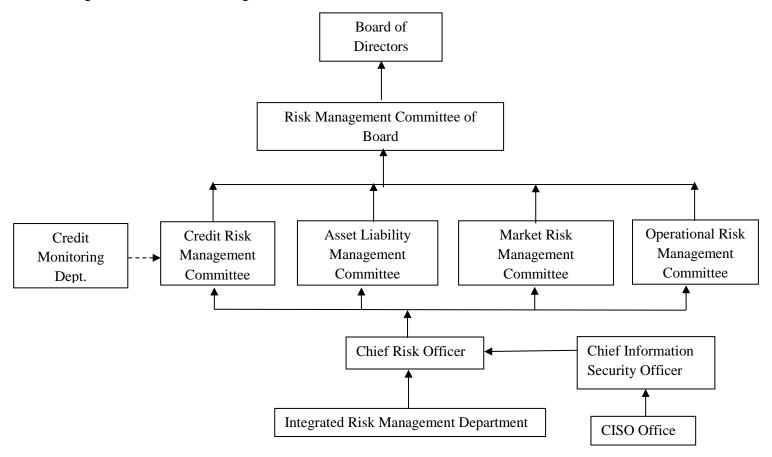

Quantitative Disclosure

	Particulars	Amount in ₹ Million

Risk Management: Objectives and Organisation Structure

Risk is an integral part of banking business in an ever dynamic environment, which is undergoing radical changes both on the technology front and product offerings. The main risks faced by the bank are credit risk, market risk and operational risk. The bank aims to achieve an appropriate trade-off between risk and return to maximize shareholder value. The relevant information on the various categories of risks faced by the bank is given in the ensuing sections. This information is intended to give market participants a better idea on the risk profile and risk management practices of the bank.

The bank has a comprehensive risk management system set up to address various risks and has set up an Integrated Risk Management Department (IRMD), which is independent of operational departments. Bank has a Risk Management Committee functioning at apex level for formulating, implementing and reviewing bank's risk management measures pertaining to credit, market and operational risk. Apart from the Risk Management Committee of the Board at apex level, the Bank has a strong Bank-wide risk management structure comprising of Asset Liability Management Committee, Credit Risk Management Committee, Market Risk Management Committee and Operational Risk Management Committee at senior management level, risk-cumcompliance officers in all Regional Offices/branches and dedicated mid office at Treasury Department and International Banking Division (IBD) at operational level. The structure and organization of Risk Management functions of the bank is as follows:

3. Credit Risk: General Disclosures

I. Qualitative Disclosure

Definition of Non-Performing Assets

The bank follows extant guidelines of the RBI on income recognition, asset classification and provisioning.

- a) An asset, including a leased asset, becomes non-performing when it ceases to generate income for the bank.
- b) A non-performing asset (NPA) is a loan or an advance where;
- i. Interest and / or instalment of principal remains overdue for a period of more than 90 days in respect of a term loan,
- ii. the account remains 'out of order', in respect of an Overdraft / Cash Credit (OD/ CC), (out of order An account is treated as 'out of order' if the outstanding balance remains continuously in excess of the sanctioned limit/drawing power. In cases where the outstanding balance in the principal operating account is less than the sanctioned limit / drawing power, but there are no credits continuously for 90 days as on the date of Balance Sheet or credits are not enough to cover the interest debited during the same period, these accounts are treated as "out of order".)
- iii. the bill remains overdue for a period of more than 90 days in the case of bills Purchased and discounted, (overdue Any amount due to the bank under any credit facility is "overdue" if it is not paid on the due date fixed by the bank.)
- iv. The instalment of principal or interest thereon remains overdue for two crop seasons for short duration crops, (overdue Any amount due to the bank under any credit facility is "overdue" if it is not paid on the due date fixed by the bank.)
- v. The instalment of principal or interest thereon remains overdue for one crop season for long duration crops, (overdue Any amount due to the bank under any credit facility is 'Overdue' if it is not paid on the due date fixed by the bank.)
- vi. Any amount to be received remains overdue for a period of more than 90 days in respect of other accounts.

- vii. The amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitization transaction undertaken in terms of RBI guidelines on Securitization dated February 1, 2006.
- viii. In respect of derivative transactions, the overdue receivables representing positive Mark-to-Market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.
- ix. A credit card account will be treated as non-performing asset if the minimum amount due, as mentioned in the statement, is not paid fully within 90 days from the payment due date mentioned in the statement.

A loan for an infrastructure project will be classified as NPA during any time before commencement of commercial operations as per record of recovery (90 days overdue), unless it is restructured and becomes eligible for classification as 'standard asset' in terms of conditions laid down in the related RBI guidelines. A loan for an infrastructure project will be classified as NPA if it fails to commence commercial operations within two years from the original Date of Commencement of Commercial Operations ('DCCO'), even if it is regular as per record of recovery, unless it is restructured and becomes eligible for classification as 'Standard asset' in terms of conditions laid down in the related RBI guidelines.

A loan for a non-infrastructure project (other than commercial real estate exposures) will be classified as NPA during any time before commencement of commercial operations as per record of recovery (90 days overdue), unless it is restructured and becomes eligible for classification as 'standard asset' in terms of conditions laid down in the related RBI guidelines. A loan for a non-infrastructure project (other than commercial real estate exposures) will be classified as NPA if it fails to commence commercial operations within one year from the original DCCO, even if is regular as per record of recovery, unless it is restructured and becomes eligible for classification as 'Standard asset' in terms of conditions laid down in the related RBI guidelines.

A loan for commercial real estate project will be classified as NPA during any time before commencement of commercial operations as per record of recovery (90 days overdue), or if the project fails to commence commercial operations within one year from the original DCCO or if the loan is restructured.

Special Mention Accounts

As prescribed by RBI, the Bank is required to identify incipient stress in the account by creating a Sub Asset category named as 'Special Mention Accounts' (SMA). It is considered as a corrective

action plan to arrest slippages of standard assets to NPA. Accordingly, Bank is identifying three sub categories under SMA as below:

- 1. SMA-0 (for loans other than revolving facilities)- Principal or interest payment or any other amount wholly or partly overdue between 1-30 days.
- 2. SMA-1- Principal or interest overdue between 31-60 days.
- 3. SMA-2- Principal or interest overdue between 61-90 days.

Credit Risk Management Practices of our Bank

The bank has a comprehensive credit risk management policy which deals with identification, assessment, measurement and mitigation of credit risk. The policy has defined credit risk as the possibility of losses associated with the diminution in the credit quality of the borrower or the counter party or the failure on its part to meet its obligations in accordance with the agreed terms. The Credit Risk Management Committee, an executive level committee is entrusted with the task of overseeing various risk management measures envisaged in the policy. The Credit Risk Management Committee also deals with issues relating to Credit Risk Management Policy and procedures and analyse, manage and control credit risk on a bank wide basis. Credit Risk Management Policy primarily addresses the credit risk inherent in advances. The principal aspects covered under this policy include credit risk rating, credit risk monitoring, credit risk mitigation and country risk management.

The major specific credit risk management measures followed by bank, as listed out in the Credit Risk Management Policy are given in following points.

- ➤ The credit/country risk associated with exposures, like inter-bank deposits and export bill discounting, to different countries are consolidated regularly and monitored by the Board.
- ➤ Bank uses a robust risk rating framework for evaluating credit risk of the borrowers. The bank uses segment-specific rating models that are aligned to target segment of the borrowers.
- ➤ Risks on various counter-parties such as corporates, banks, are monitored through counterparty exposure limits, also governed by country risk exposure limits in case of international transactions.
- The bank manages risk at the portfolio level too, with portfolio level prudential exposure limits to mitigate concentration risk.

II. Quantitative Disclosure

a) Gross Credit Risk Exposures as on 31st December 2022

(Amount in ₹ Million)

Category	Exposure
Fund Based ¹	9,42,939.79
Non Fund Based ²	51,860.67
Total	9,94,800.46

Note:

- 1. Fund based credit exposure excludes Cash in hand, Balance with RBI, SLR investments, shares, deposits placed NABARD, SIDBI & NHB, Fixed and Other assets.
- 2. Non-fund based exposure includes Letter of Credit, Acceptances, Bank Guarantee exposures and Forward Contracts. The value of forward contracts is arrived based on Current Exposure Method (CEM).

b) Geographic Distribution of Credit Risk Exposure as on 31st December 2022

Particulars	Amount in ₹ Million

e) Major Industry breakup of NPA

(₹ in Million)

Industry	Gross NPA	Specific Provision
Top 5 Industries	34,518.65	21,165.51

The composition of Gross NPAs and NPIs, Net NPAs, NPA ratios and provision for GNPAs and GNPIs as on 31st December 2022 and movement of gross NPAs and provisions during the quarter ended 31st December 2022 are given in following table:

(₹ in Million)

	Amount of Gross NPAs	38435.67
	Substandard	7390.55
1	Doubtful-I	14567.63
1	Doubtful-2	10331.94
	Doubtful-3	4819.98
	• Loss	1325.58

2	Net NPA	15298.99
3	NPA Ratios	
	Gross NPA to Gross Advance (%)	5.48
	Net NPA to Net Advance (%)	2.26
	Movement of N PA (Gross)	
	Opening Gross NPA (balance as on 01.04.2022)	36480.94
	Additions to Gross NPA	11553.86
	Reductions to Gross NPA	
	Up gradations	1932.67
	Recoveries (excluding recoveries made from upgraded accounts)	6519.88
	Technical/prudential write offs	1146.58
	Reduction by sale of assets to ARCs	0.00
	Closing Balance of Gross NPA	38435.67

Movement of Specific & General Provision – Position as on 31st December 2022

(₹ in million)

Movement of Provision	Specific Provision	General Provision
Opening Balance as on 01.04.2022	18205.65	0.00
 Provision made in 2022-23 	8958.18	0.00
Write off/ Write back of excess provision	5217.20	0.00
Closing Balance as on 31.12.2022	21946.63	0.00

$\frac{NPIs \ and \ Movement \ of \ Provision \ for \ Depreciation \ on \ Investments - Position \ as \ on \ 31^{st}}{December \ 2022}$

(₹ in million)

1	Amount of Non Performing Investments (Gross)	1,474.37
	Amount of Provisions held Non Performing	
2	Investments	1,085.22
	Movement of Provisions for Depreciation on Investments	
	Opening Balance (as on 01.04.2022)	8,990.33
3	Provision made in 2022-23	3,547.45
	Write-offs / Write-back of excess provisions during the period	0.00
	• Closing Balance (as on 31.12.2022)	12,537.78

Geographical Distribution of NPA and Provision

(₹ in million)

Geography	Gross NPA	Specific Provision	General Provision
Domestic	38435.67	21946.63	0.00
Overseas	0.00	0.00	0.00
Total	38435.67	21946.63	0.00

4: Credit Risk: Disclosure for Portfolios under Standardized Approach

I. Qualitative Disclosure

a. Names of credit rating agencies used

Bank has approved all the six External Credit Rating Agencies accredited by RBI for the purpose of credit risk rating of domestic borrowal accounts that forms the basis for determining risk weights under Standardized Approach. External Credit Rating Agencies approved are:

- 1. Credit Rating Information Services of India Limited (CRISIL)
- 2. Credit Analysis and Research Limited (CARE)
- 3. India Ratings and Research Private Limited (Formerly FITCH INDIA)
- 4. ICRA Limited (ICRA)
- 5. Acuite Ratings and Research Ltd
- 6. Infomerics Valuation and Rating Pvt Limited

The Bank computes risk weight on the basis of external rating assigned, both Long Term and Short Term, for the facilities availed by the borrower. The external ratings assigned are generally facility specific. The Bank follows below mentioned procedures as laid down in the Basel III guidelines for use of external ratings:

- ➤ The external rating assigned by an agency is considered if it fully takes into account the credit exposure of the bank.
- ➤ If an issuer has a long- term exposure with an external long term rating that warrants a risk weight of 150 percent, all unrated claims on the same counter-party, whether short term or long-term, should also receive a 150 percent risk weight, unless the bank uses recognized credit risk mitigation techniques for such claims.
- > If an issuer has a short-term exposure with an external short term rating that warrants a risk

- weight of 150 per cent, all unrated claims on the same counter-party, whether long-term or short-term, should also receive a 150 per cent risk weight, unless the bank uses recognized credit risk mitigation techniques for such claims.
- ➤ The unrated short term claim of counterparty will attract a risk weight of at least one level higher than the risk weight applicable to the rated short term claim on that counter-party. If a short-term rated facility to counterparty attracts a 20 per cent or a 50 per cent risk weight, unrated short-term claims to the same counter-party cannot attract a risk weight lower than 30 per cent or 100 per cent respectively.

b. Process used to transfer public issue ratings onto comparable assets in the banking book

- (i) In circumstances where the borrower has a specific assessment for an issued debt but the bank's claim is not an investment in this particular debt the rating applicable to the specific debt (where the rating maps into a risk weight lower than that which applies to an unrated claim) may be applied to the bank's un-assessed claim only if this claim ranks pari passu or senior to the specific rated debt in all respects and the maturity of the un-assessed claim is not later than the maturity of the rated claim, except where the rated claim is a short term obligation. If not, the rating applicable to the specific debt cannot be used and the un-assessed claim will receive the risk weight for unrated claims.
- (ii) If either the issuer or single issue has been assigned a rating which maps into a risk weight equal to or higher than that which applies to unrated claims, a claim on the same counterparty, which is unrated by any chosen credit rating agency, will be assigned the same risk weight as is applicable to the rated exposure, if this claim ranks pari-passu or junior to the rated exposure in all respects.

II. Quantitative Disclosures

Amount of exposure (after risk mitigation) outstanding as on 31st December 2022 under major three risk buckets:

Description of risk bucket	₹ in Million
Below 100% Risk Weight	6,69,688.32
Risk Weight at 100%	1,48,188.18
More than 100% Risk Weight	41,314.19
Deducted if any	Nil

(Amount of exposures includes cash in hand, balance with RBI, investments, loans and advances, Fixed and other assets, off balance sheet items and forward contracts)

Leverage Ratio:

Leverage ratio is a non-risk based measure of exposure over capital. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements.

The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator), with this ratio expressed as a percentage.

Leverage Ratio = $\underline{\text{Capital Measure (Tier I Capital)}}$ Exposure Measure

Leverage Ratio	December 2022	September 2022	June 2022	March 2022
	5.62%	5.52%	5.81%	5.83%
